SUBJECT: Proposed Amendment to BDM Contract 82-B764800-000

1. We have reviewed the proposed amendments to the contract with BDM in relation to tasks 5 and 6. Based upon this review, it is our judgment that the hours proposed are reasonable for the accomplishment of these tasks. Likewise, the amount of travel proposed is reasonable in relation to the contract requirements.

2. We also consider the 30 hours of work proposed for Mr. Martenson as a subcontractor are reasonable and should be sufficient for the accomplishment of the portion of the contract task to be done by him.

3. In regard to the question of the possible conflict of interest which was raised relative to the proposed subcontract with Mr. Martenson, we have reviewed OCG Memo 84-51743 of 8 August 1984. The work proposed to be done by Mr. Martenson falls within the guidelines as stated in the subject OCG memo. As COTR under the contract, we will assure that Mr. Martenson's activities will be constrained within these guidelines.

4. Based on the foregoing, we request that the proposed amendments to the BDM contract be executed as soon as possible.
